THREADED ROD

STANDARD STOCK THREADED ROD

- Low Carbon Steel 2-56 to 2" dia.
- T304 Stainless 2-56 to 1½" dia.
- T316 Stainless 6-32 to 1½" dia.
- Brass 2-56 to 1" dia.
- Aluminum 6061T6 4-40 to ¾" dia.
- B7 Alloy 1/4-20 to 2-8 dia.
- Silicon Bronze 1/4-20 to ¾-10 dia.

Fine, Coarse and Metric threads available in most materials.
Left Hand threads available in some materials.

Finishes Include:

- Plain/Oil Finish
- Clear or Yellow Zinc Plated
- Hot Dip Galvanized
- Black Oxide (B7 certain sizes only)

STUDS/SPECIALS

We can custom manufacture studs and special parts in all materials.

We define a stud or special to be any length other than our standard stock of fully threaded rods.

Studs/Specials can be:

- Full Thread lengths as short as 1/2"
- Single or Double-end threaded rods.
- Blank Pins or Knurled finish.
- Cut threads instead of our standard rolled thread.
- Chamfered ends.
- Left Hand threads — full length, single or double end.
- Acme and Ball Screw threads available.
- All standard finishes plus Nickel and Black Oxide.

BENT PRODUCTS

STOCK ANCHOR BOLTS

Our range covers 3/8" diameter through 1" diameter.
